Dear Associate Administrator Ganesan:

I am writing to request a meeting for several of my constituents with an appropriate EPA representative.

A 16-pump gas station is currently planned for Wheaton, Maryland, which is located in my congressional district. The throughput volume per day is expected to be 250 vehicles per hour at 16 pumps, for 15.5 hours on weekdays and 13 hours on weekends. The station will be located 125 feet from single family and town homes, 850 feet from a school for special needs children and 300 feet from an outdoor recreation center.

I have been advised that the anticipated NO2 output exceeds EPA regulations. My constituents would like to meet with an EPA expert on air quality to discuss how EPA interprets and addresses NO2 results that violate regulations. My constituents have requested this meeting before September 9, 2013.

I would appreciate your response as soon as possible. Please direct all correspondence to me at the following address:

51 Monroe Street, Suite 507
Rockville, MD 20850
FAX: (301) 424-5992

If you need additional information, please contact Sara Rosen of my staff at (202) 809-5813 or sara.rosen@mail.house.gov.

Thank you for your assistance.

Sincerely,

Chris Van Hollen
Member of Congress
